Master of Computer Application Education

The Indian economy is on an extremely positive note; growth is across sectors, both in traditional industries and new sectors. In such an environment, corporate India will need young and talented youth to actively participate, manage, design, develop and lead several IT initiatives. It has not been better than this for aspirants of MCA education.

The size of BPO and ITES (IT Enabled Services) business in the country has been pegged at \$21-\$24 billion by 2008. Global outsourcing of BPO and ITES operations to India will continue in the years ahead. Growth in the ITES segment would provide a boost for employment generation and increased foreign exchange earnings. India's advantages include the availability of English-speaking manpower, availability of qualified manpower at competitive costs and a virtual 12-hour time lag with the US. The infrastructure is being created to facilitate the setting up of ITES outfits in smaller cities and towns to reduce the cost of operations. ITES industry in India would witness "unparalleled growth" in the next 3-5 years. This growth would be fuelled by the need for companies to outsource with a view to reducing costs. It is projected that only 40% of ITES and BPO activity would be call centres while the balance would offer services related to healthcare, R&D, education and training, finance, insurance, tourism, hospitality, etc. The range of service offerings from India is also the widest. Indian IT-ITES growth has had a significant multiplier effect on the Indian economy. Apart from the direct impact on national income and employment, the IT sector has also contributed to the growth of several ancillary industries.

The Directorate of Technical Education aims towards making available these trained and qualified hands to serve the industry and society. Equality of educational opportunities and preparing highly skilled work force for enterprises widely with excellence is also one of the objectives of the Directorate of Technical Education. The endeavor of the Directorate of Technical Education is to be flexible enough to adapt to rapid change. The precise aim of the system is to develop and transfer the right talent to meet the demand of corporate India and the society at large.

The role of the Directorate is to persistently enhance the standard of quality of Technical Education by laying the policies, developing government institutions, guiding and supervising the self financed institutions, interacting with industry and national level institutions, coordinating with other departments of State Government and to contribute to the development of industry, state, society. In keeping with this the Directorate of Technical Education, is constantly striving to set high standards amongst the institutions that deliver Master of Computer Application Education.

We hope that this year we are able to serve the student community with the best learning and transparent environment and are able to groom students suited to play a significant role in the Indian economy both as capable corporate members and even better citizens.

The Director of Technical Education wishes all the aspiring candidates grand success in the MAH-MCA-CET 2007.

CLARIFICATION

The Hon'ble Supreme Court (Bench of Hon.7 judges) has delivered a judgment on 12/08/2005 in Civil Appeal No. 5041/2005 in respect of 'rights and entitlement' of Government as against Private Professional Educational Institutions. This judgment expects enactment of legislation by Central Government and in its absence, by State Government in this regard. This process has been initiated. However it is not certain, as of this date, as to when such legislation will come into force, as also its provisions.

In the meanwhile, in terms of the observations of the Hon'ble Supreme Court from the aforesaid judgment, at least at this stage, it appears that State Government cannot claim any quota/seats in these colleges/institutions, and consequently cannot effect admission in these Private Professional Colleges/Institutes, except to the extent agreed to with certain institutions.

It is therefore made clear that on the aforesaid interpretation and advice given to the State Government, this Brochure will not apply to the admissions to be effected in the academic year 2007-2008 at the Private Professional Colleges / Institution in so far as postgraduate courses are concerned, with the above exception.

However, it is made expressly clear that if, after issuance of this Brochure, either on account of any legislation or on account of any different interpretation/opinion/advice or due to any judgment/order passed by any court of law or even otherwise, the State Government is found entitled to any seat(s) in the Private Colleges/Institutions and consequently entitled to effect the admission(s) to such seat(s), the rules and regulations set out in this Brochure will made applicable to such seat(s) and admission(s). In such event, a separate intimation will be issued with appropriate details.

It is also made hereby clear in no uncertain terms that the same 'Common entrance Test' that is proposed to be conducted in terms of this Brochure will govern such admission(s), if any.

It is hereby clarified that, Association of Unaided Private Institutes conducting MCA courses has given in writing to the State Government that, the admission to the member institutes be conducted on the basis of CET that is being conducted by the Government of Maharashtra in pursuance of this brochure. The Association has also submitted in writing that, their admissions be conducted under the CAP rounds by the State Government. Therefore, admission to these institutes (a list of which is enclosed in the brochure) will be conducted on the basis of MAH-MCA CET 2007 of the State Government and the CAP of the State Government. Separate rules will be notified as to the allocation of seats, reservation etc. well in advance before the conduct of actual allotment process by way of accepting option form.
